NOI X Files Presents: Paranormal Activity

As a student of the Most Honorable Elijah Muhammad under the guidance of the Honorable Minister Louis Farrakhan, I often wondered in the past two to three years whether there was any validity to the so-called sighting of ghosts, entities, and spirits, or what is generally referred to in the world as paranormal activity.

There are some accounts in the life of the Honorable Minister Louis Farrakhan that stand out to me in reference to the possibility of explaining some of this Paranormal activity that the world refers to. If such truth were to be made known, surely from my point of view, Allah would use His Apostle to give an example of what such truth could be. The events we will be examining in the life of the Honorable Minister Louis Farrakhan start with one of the experiences that he shared with us.

NOI X Files Presents: Paranormal Activity

We recall the Honorable Minister Louis Farrakhan sharing with us when he rose out of his body as he was lying in bed and began to travel, and he found himself moving along the highway towards Chicago. As he arrived at the home of the Most Honorable Elijah Muhammad, he witnessed the Most Honorable Elijah Muhammad weeping over the circumstances surrounding his son, Wallace, as he repeated my son, my son. It is at this point that the Honorable Minister Louis Farrakhan told us, he said, "I'll be your son, dear Apostle." This is the area I would like to focus on when the Minister told us that the Most Honorable Elijah Muhammad never acknowledged him and wasn't sure he was heard. I want to start with this as a possibility, so let's raise the question. Is it possible to see and hear an individual who is having an out-of-body experience in their astral projection state? If it is possible, then the realities may range from sensing the presence, seeing, and hearing as well. Again, if possible, how would this manifest? Would you see some form of electrical presentation? Would it manifest any colors? Is this what people around the world are referring to as seeing a ghost, spirit, or some sort of entity?

NOI X Files Presents: Paranormal Activity

In the next account, we recall the Honorable Minister Louis Farrakhan sharing with us the night when he went into close the window in his bedroom, and a visitor appeared. In the room, the person manifested as a shaded figure outlined with light. Eventually, from this interaction with the visitor, the germ of tuberculosis was removed from the Minister's heart. Now, as we take a look at this visitor and its presentation, we know that there is no mystery God. We can ascertain from the teachings of the Most Honorable Elijah Muhammad that any type of form is reality-based in the God, which is a living human being. So we raise the question, do highly evolved human beings have the ability to manifest in different forms? And if that is the case, then what are the possibilities of the various forms that a highly evolved, powerful human being can manifest in?

NOI X Files Presents: Paranormal Activity

As pointed out by Sis. Iman Ali on the people's podcast, scientists are now saying that an atom is 99.999 empty space. In this area of space, it is suggested that various energies exist, for example, electromagnetic and dark energy. We are now raising the question about this man who has appeared amongst us, Master Fard Muhammad. If we are labeling him as the first perfect man born in the history of the universe to master the creation, then is it safe to say that this man's mastery includes not just our limited knowledge of the creation, but he's also master over that which we know not, including the atom. Is it possible that this man has mastered the atom's physical and energy nature and can manifest in and out of these realities? The Holy Quran states that Allah is He Who created the heavens and the earth and what is between them (32:4). We are relating this heaven and earth to the energy fields and physical aspects of the atom.

Likewise, the Holy Quran highlights the reality of both the seen and the unseen (13:9). So, is it possible that Master Fard Muhammad can traverse in and out of both realities and has the knowledge of all in between? If a highly evolved individual or persons can do such, is this possibly connected with the so-called sightings of ghosts, entities, and spirits that are now being reported in the modern world?
