

The Honorable Minister Louis Farrakhan's Return, What could we expect?

Volume 1

Introduction:

This collection of theories and speculations based on The Teachings of The Most Honorable Elijah Muhammad & the understanding from The Honorable Minister Louis Farrakhan are harmonized together from the accumulated study of my time in The Nation of Islam which spans from 1996 when I was 22 years old to current 2025. I believe that I've been exposed to potential elements that would allow me to construct a case to be offered for examination by our Nation to potentially peep a glance as to what's coming in the very near future for The Believers, our people & the world.

Various hints, sayings, statements and insights picked up from lectures, books, conversations, etcetera from The Teachings of The Most Honorable Elijah Muhammad & the understanding from The Honorable Minister Louis Farrakhan has aided me tremendously on this expedition. In addition to visions & possible experiences that I would only credit to The Lord of the Worlds, The Divine Supreme Being, Master Fard Muhammad and his Christ, The Most Honorable Elijah Muhammad. A year doesn't go by without receiving some type of communication in my opinion to continue to urge me down the path of this course of study. I can't escape it, it's with me in my waking thoughts, it's with me in my sleeping thoughts, so I must continue on this course until the Divine Supreme Being Master Fard Muhammad is pleased with my response. At least that's how I currently understand it.

Throughout the years it appears to me that there is a chronological timeline of events that need or can be put in order to some degree towards the effort of helping to get an understanding of what to expect on the return of The Minister from The Wheel.

The Minister has stated, he will return from The Wheel not only having a renewed body, a glorified body, as Brother Minister Jabril Muhammad has pointed out, in addition to the wisdom for the next 10,000 years. The wisdom for the next 10,000 years is referring to The Holy Qur'an that Master Fard Muhammad hand wrote and shown to The Most Honorable Elijah Muhammad. I believe he will return with the version in english. As we know, there are 2 copies of this book. There's an English version and there is an Arabic version. The English version can also be referred to as English lesson number c two, I believe.

If we are blessed to be in that number to meet him upon his return we will be blessed indeed, This is the area of the future that I am drawn to and believe I received some insight on how events may take place from the time that he sets his foot on so called

American soil from The Wheel, to our departure eastward and the evacuation of this country towards the onward march of building a High Civilization and all in between. In addition i hope to also draw attention to one of the most important topics in scriptural history, the identity of Minister Farrakhan, beyond the scope of his first phase work of The National Representative. A function and title that my brain & mind haven't been able to formulate or even utter a sound to speak as of yet, yes it's that massive, as well as the reality of the two that back him. Welcome to Volume 1.

Section 1: The Return

The Minister has said to us that Allah will not reveal any new wisdom until the power of this country is broken. It reminds me of what The Most Honorable Elijah Muhammad said about how our people built the pyramids. We used a system of hydraulics, this method and technique would not go back into activation until the power of the enemy is broken, lest he would make an attempt to try and use it to stay here longer. When The Minister comes back, how will it be communicated to the believers that The Minister has returned? Will we have working TV, working radio, working cell phones, internet signals or shortwave radio? What condition will the communication systems of the world be in when The Minister returns, or will it be communicated to us spiritually in the form of dreams, visions, experiences? We know that Allah will use the Sun and the Moon to disrupt the communication systems of the world at some point during the chastisement period when The Minister is away and even at present perhaps, so how that affects matters may factor in.

Okay, let's say he has returned. When will we see him? Let's get into some speculation and theory. At this point, will we re-organize the study groups and mosque in order to receive him? Does he do a tour of the regions? That would be one hell or heaven of a believer's meeting, or consider this happening at our Saviours' Day Convention!!! Can you imagine this, to see our Minister victorious and triumphant over the forces of death now standing before us with that beautiful smile on his face. Looking like he's 16 years old in a glorified body, likely wearing some holy robe that he received on The Wheel. The book of guidance in his hand, that blessed Holy Qur'an written by the hand of Master Fard Muhammad, the letters gleaming light off the cover. Can you imagine the high-spirited meeting that would be? What kind of instructions will be passed on? What particular information will we be given to begin the process of rebuilding the wasted cities? The cities may be in a devastating condition after the 3 years of chastisement.

How will the rebuilding take place? Does he come back with any blueprints or plans for any particular type of construction for new buildings, what type of civilization building methods or ideals will he come back with to reflect the high wisdom that he was given and has in his possession. How will the spiritual teachings be implemented? We will be blessed indeed if we are able to survive the fall of this world and be in that number to meet and greet Allah's divine servant on his return from The Wheel.

Section 2: The Kingdom

It's well-known that the scriptures point out that Allah is able to take the Kingdom from whoever and give it to whoever he pleases. That is exactly the scenario that we will walk into if we survive the fall of this world, Allah willing. When The Minister returns from The Wheel and the reorganization of our Nation begins, I believe that many statements The Most Honorable Elijah Muhammad said to us in The Theology of time lecture series will take place in this period of time between The Minister's return and prior to our departure eastward.

I don't believe that we will immediately go eastward. The scriptures point out when Babylon fell, 3 peoples were present. The Hebrews (Black folks), the Medes and the Persians, the American so-called Indian and the Mexicans, as I heard referenced by Minister Jabril Muhammad. We will rule portions of America and establish a Nation. The Minister has also stated that when we begin building and they see what we're building will be superior to what they have, That's when they will go totally insane and come after us and that's when Allah will totally wipe them out, I speculate that doesn't happen until we rule in America for a significant number of years.

Now, in this time period of ruling America, there are certain events that we can theorize and examine to get a picture of. Statements I would hear as oral traditions in my early years in the study group. Such as people would pay us to teach Islam. (some of which may be gradually happening) I also heard Brother Minister Jabril Muhammed say that the way you stop drug dealing in our neighborhoods is to put a couple of heads on poles throughout the community. that will send a clear message for our people to stop that activity. We will have the clear power and authority to carry out these instructions under the charge of he that has returned, the lion sent to conquer the wilderness The

Minister!! We were also told statements that white folks will walk out of these big luxurious homes and we will walk right in them. We were also told that we would be so rich and have so much wealth that some of our people wouldn't be able to take it and would die. In the midst of all of that magnificent progress, the spiritual work of the resurrection of our people is most intriguing. We know that it has been said one toot from that horn and they all will get up. The power and teaching that we will receive from The Minister will enable us to do the work of resurrection on a more prolific and higher level, perhaps due to what we just went through, the chastisement allowing us to be greater vessels to receive the new. Converting our people and waking them up at a more magnificent and tremendous rate, it is said that the 10,000 angels would do a work. Impacting and gathering the 144,000, then the 144,000 once gathered proceed to square The Nation then ultimately cubing The Nation. Will this all take place in the time we rule America, we shall see.

Section 3: To the East my Brother to the East

So now, let's say we ruled in America for X amount of years. The time has come to evacuate the country before Master Fard Muhammad totally destroys it as we flee to the east as pointed out in the history of Jesus. Jesus and his mother Mary were put on a fast camel and sent into Egypt, where he would grow up and be educated. That was a sign of the so-called american negro, evacuating the country to be educated in the east where we would be prepared for our world mission. Our mission would not be limited to teaching the people for 22 years as Jesus did according to the history, but our mission will be to teach and guide the human family into that which is the eternal will and wisdom of Master Fard Muhammad forever more.

Of course, I'm not suggesting that this schooling will take place immediately once we set our feet on Eastern soil. I'm not aware of how long it would be before that takes place, at a particular point we, as it's said, the believers will begin a 20 year period of schooling, as referenced in the teachings of The Most Honorable Elijah Muhammad. I'm not exactly sure as to how the lost found will be handled in the way of being taught, or if any of our people will still be lost found at that point, perhaps still some form of orientation, perhaps not receiving what the believers receive at that point. Let's call

Mother Tynnetta Muhammad (What a Magnificent Woman) to the witness stand, "According to the Divine Teachings of the Honorable Elijah Muhammad, we have before us 20 years of re-education and training to which he pointed to Al-Azhar University in Egypt as a sign. He stated that we would be educated and trained there into advanced mathematics and science and learn the mechanics of the universe that we had never been taught before. We would be trained under our own scientists and teachers into the creation of an entirely new world". Minister Jabril Muhammad (The Mighty Companion) makes reference to this information, I believe, that we'll be educated into, in his book This is the One on page 126, where he stated in one of his lectures that The Most Honorable Elijah Muhammad gave him these words to put in his book as if from himself, he also made reference to the 20 Actual Facts we have in our Lessons and how they might correspond to this 20 year time period of schooling. The Most Honorable Elijah Muhammad's Savior's Day 1973 lecture teaches us that he has lessons and courses for us to come on the subject of life on other planets. This schooling for 20 years will be an monumental and irreversible act that brings The Nation into the realm of god hood which advances us greatly toward being made into a new people and the perfect rulers. We were also taught that we would learn a new language, which is the perfected form of Arabic. In the interview with Buzz Anderson, The Most Honorable Elijah Muhammad said that we would have 20 years to phase out the English language, after 20 years we would not be permitted to speak it. We will have to speak our own language.

The Most Honorable Elijah Muhammad said to The Minister, once you master one meal a day go to one meal every other day, and once you master that go to one meal every 3 days and stay there for the rest of your life. We are well aware of that conversation, there is another part to that conversation I learned a few months back. The Most Honorable Elijah Muhammad goes on to say to The Minister words to the effect of, I want you to live a long life and help me with the work of the resurrection. I am now examining that statement in light of this subject matter, do these words have far more reaching implications beyond The Minister's working to assist him at present when he spoke in addition to the 40 years he would repeat the first term examination that we as a Nation failed? Could these words have foreshadowed a time The Minister would be reunited with his teacher?

I'll wrap this up with The Minister. When a man is invited to the high station and position of assisting The Great Mahdi and his Second Self, this is not a man to be taken for granted or to be taken lightly. The duties and responsibilities of assisting these 2 mighty individuals may be unfathomable at this time. I believe Allah allowed me perhaps, to get a small glance or peep into the reality of that man's function and position, the vision or experience I had was mind blowing!! It left me stunned in my chair weeping, it was a magnificent and majestic sight. Causing me to ponder, he may be more than what we see and think of him at present, by the grace and order of the 2 that back him.
